

Operations & Quality Manager

Full-time, part-time, freelancer or working student
Munich, Germany and/or remote
April 2022

Let's make therapy
a game!

Let's make therapy a game!

reFit Systems is at the forefront of gamification and digitization of physical therapy for children. Our mission is to make therapy a game.

We are a start-up with a passionate and experienced team of software engineers, game developers, physiotherapists, and physicians. Together with the support of our network of partner clinics, we are redefining therapy healthcare for children by creating games and digital solutions with children in mind.

On our path to reaching every child in need of physical therapy, we are consistently growing our team. Right now, we are on the lookout for a *Operations & Quality Manager* to help us improve and consolidate reFit's quality management procedures.

Your roles

Within this role at reFit, you will:

- implement and improve our quality management procedures
- define standard operating procedures together with our therapists, physicians, and software engineers
- analyze and evaluate feedback from partner clinics, patients and stakeholders identifying opportunities to improve reFit and our products
- support our risk management process to help us ensure that our products are safe
- set up and maintain controls and documentation
- review existing policies and make suggestions for pragmatic changes and improvements and how to implement them
- assess the effectiveness of changes made and look at ways to increase efficiency

We value diversity and enthusiastically encourage applications from people with diverse identities and backgrounds, like yours. If you're driven, want to be a part of a one-of-a-kind, multicultural,

collaborative, and inclusive startup, and help shape the future of healthcare for children in need of physical therapy, let's meet and talk about this opportunity. Let's make therapy a game, together!

What we offer

- lots of opportunities to make decisions that have an impact.
- a highly motivated and diverse team with various cultural and career backgrounds.
- an innovative digital health product with many different paths to profitability.
- a fair workplace with an open-feedback culture where every voice matters, and growth and development are encouraged and supported.
- flexible working options with offices in the city of Munich.

Your profile

Minimum

- fluent in German and English
- good communication and interpersonal skills
- analytical and pragmatic problem-solving ability
- planning and project management skills
- persistence and persuasiveness
- the ability to facilitate change
- ability to work independently and goal-oriented

Score some extra reFit Gamo coins if you have experience in one or more of the following fields

- experience in quality management and/or with medical device manufacturers
- software development and/or digital health

Sounds like a job for you?

Tell us your story and why you want
to make therapy a game!
